Please be aware that your SnüzPod foam mattress may get compressed in transit. To allow for recovery, please remove from packaging and lay flat in a warm environment. This may take 5-7 days depending on temperature.

If there is any part missing or defective please email parts@snuz.co.uk

Measure / Mesure / Mial / Afmeting / Medir / Maß / Measure / Miar / Afmeting / Medir / الحِجَاف / Matt

A circular inset illustration showing a hand holding a measuring tape against a wall, demonstrating how to measure the height of a person.

Technical drawing of a bed frame showing dimensions and assembly points. The drawing includes a top view and a side view. The top view shows a rectangular frame with a central cutout. The side view shows the frame's profile with a curved top and a flat base. Dimensions are indicated by dashed lines and arrows. Assembly points are marked with circles and letters (A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z).

Incline

R. 1.

U x2

PSP5018

The head of the child in the crib should never be lower than the body of the child.

Bedside sleepers shall never be used in an inclined position.

The incline position may only be used when the SnüzPod5 is used as a standalone crib and where the zip down wall is zipped up / closed.

Do not use the incline position during periods of sleep.

The maximum angle of the crib when in the incline position is 10 degrees.

Using in Bedside Mode (fastened to bed)

When attached to your bed, SnüzPod⁵ has a permanent half-height wall to meet the bedside crib standard BS EN 1130:2019.

- 1 Follow the instructions below to fit the straps to your bed - these will be tightened later.**

Use the attachment system provided. Do not use another attachment system.

Frame style bed

Divan or solid bed base

2 Ensure the metal pole is in the correct, lower location and the zip down wall is lowered fully.

3 Ensure the zip down wall is tucked between the crib frame and the adult mattress.

Leaving the metal pole in the upper location could be hazardous.

Always retain the metal pole in the rear wall (the wall furthest away from your bed).

4 Ensure that your mattress is level with the top of the zip down wall of the crib.

5 Tighten straps to secure the crib to your bed.

Do not over tighten the strap, as this may cause the crib frame to tilt.

Ensure that the crib frame is flush with your bed frame / base.

Check the tightness of the attachment system before each use by pulling the bedside sleeper in a direction away from the adult bed.

Tuck any excess strap under your bed base, away from babies and children.

WARNING: Ensure there are no gaps between the crib and the adult's bed.

WARNING: During use, always ensure that the parents' bedding, sheets, blankets etc. do not enter or cover the inside of the crib.

⚠ IMPORTANT: READ CAREFULLY. KEEP FOR FUTURE REFERENCE.

- EN** Please take the time to carefully read the following warnings and recommendations as incorrect use of this crib can be dangerous. These instructions are provided to keep your baby safe, whilst in your SnüzPod5 and maintain safe, and proper use.

GENERAL USE

REMEMBER: YOUR BABY'S SAFETY IS YOUR RESPONSIBILITY.

WARNING: Do not use this product without reading the instructions for use first.

WARNING: Stop using the product as soon as the child can sit or kneel or pull itself up. This product is only suitable for a child who cannot sit up unaided.

WARNING: Placing additional items in the product may cause suffocation.

WARNING: Do not place the product close to another product, which could present a danger of suffocation or strangulation, e.g. strings, blind/curtain cords, etc.

WARNING: Do not use the product with more than one child at a time.

WARNING: Do not use crib without the fabric bag.

WARNING: Choking hazard – keep loose screws out of reach of children.

WARNING: Keep metal poles away from babies and children.

WARNING: Be aware of the risk of burning cigarettes, open fires and other sources of strong heat, such as electric bar fires, gas fires, etc. in the near vicinity of the crib.

- Maximum recommended weight of child is 9KG (20lbs).

•

DO NOT use crib if any parts are missing, torn, damaged, or broken. Contact Snüz for replacement parts and instructional literature if needed. DO NOT substitute parts. Only use replacement parts supplied or approved by the manufacturer.

- Do not allow pets or other children to be left unattended/ play unsupervised near the crib.
- Only use on a firm, horizontal level, and dry floor.
- The baby should be removed from the crib before any adjustment is made to the product.
- The baby should be removed from the crib/bassinet before the product is carried or moved.
- We do not recommend using sleep positioners with this product and as per the guidance of safe sleep experts, only use a firm, flat mattress recommended specifically for use with the product.
- Once you have moved the crib using the castors, ensure the brakes are reapplied before placing the baby into the crib.
- The mattress baseboards must be positioned so that the warnings are facing downwards once the crib is put together.
- The crib should be locked in the fixed position when the child is left unattended

BEDSIDE USE

WARNING: To avoid hazards from the child's neck being caught on the top rail on the side that is next to the adult bed, the top rail must not be higher than the adult bed mattress.

WARNING: To avoid the risk of your child being strangled, the attachment system to the adult's bed shall always be kept away from and out of the crib.

DANGER! Always completely raise the zip down wall when not attached to the adult's bed. Ensure both zips

are fully closed, and the metal pole for zip down wall is

WARNING: The crib is not suitable for use with the following: folding or sofa beds, guest beds, high sleeper

or low floor beds with protruding frames including futon beds, antique beds and water beds.

WARNING: During use, always ensure that the parents' bedding, sheets, blankets etc. do not enter or cover the inside of the crib.

- Suitable for use with beds where the top surface of the adult mattress is a maximum of 705mm from the floor.

- The SnüzPod should not be used as a bedside crib outside of the guide height shown in these instructions.

- There shall never be a gap between the lower side of the bedside crib and the mattress of the adult bed.

- If there is any gap between the crib and the adult bed when in bedside sleeper mode, DO NOT use this product.

- Gaps should not be filled with pillows, blankets or other items.

- To prevent suffocation, the crib should be securely attached to the parent's bed using the straps provided only, in line with the user guide. Ensure all excess strap material and poles are kept away from babies

- When used in bedside crib mode, have the zip down wall tucked in between the crib frame and the adult mattress. Ensure the metal pole is in the correct, lower location and the zip down wall is lowered fully. Leaving the metal pole in the upper location could be hazardous.

- Parts required for bedside sleeper mode: Frame style bed - Part R (PSP4015) Divan or solid bed base - Part S (PSP4016)

- DO NOT use bedside sleeper if any parts are missing, damaged, or broken. Contact Snüz for replacement parts and instructional literature if needed. DO NOT substitute parts

MATTRESS

WARNING: Do not use more than one mattress in the product.

- The recommended mattress size for the crib is 800mm x 440mm x 30mm thick. Always ensure that the mattress height does not exceed 30mm. The top of any mattress used should not be higher than the mark on the inside of the bassinet leg – a small notch 10mm long. You may need to move the bag aside to see this fully. Ensure the internal dimensions of the crib are no greater than 20mm larger than the length and width of your mattress.

CARING FOR YOUR SNUZPOD5

- Check your crib regularly. All assembly fittings should always be tightened properly and care should be taken that no screws are loose, because a child could trap parts of the body or clothing (e.g. strings, necklaces, ribbons for babies' dummies, etc.), which would pose a risk of strangulation.

- Regularly check that the fabric bag is securely and properly attached to the crib. Before every use, ensure that the metal poles are in situ. Regularly hand tighten screws, avoiding over-tightening as this may cause cross threading and damage.

- Do not dry clean. The crib can be wiped/sponged clean with a mild detergent. The fabric bag can be removed from the crib, and hand washed according to the fabric bag care label.

- This is a natural product and may be affected by extremely dry, humid, or damp atmospheres.

- Store away from direct heat, or away from places of extreme temperature fluctuations such as roof attics, by outside walls, or near single glazed windows.
